

Infinity Logo Light Instructions

SET UP

After removing Infinity Logo Light from its original packaging, Carefully peel the Clear Plastic Covering from both sides, including all unprinted areas around and within the Logo. (This will allow more white light to shine in these areas)

Carefully slide the bottom tab of the Infinity Light into the channel of the Black Base. Wiggle side to side if this is a tight fit. A tight fit is BEST.

Plug the Transformer into any 110 volt outlet. Make sure the ON/OFF switch is in the ON position.

IMPORTANT SAFETY INSTRUCTIONS

Read all instructions before using this product.

When using an electrical product, basic precautions should always be followed, including the following:

DANGER

To reduce the risk of shock, always unplug this product from the electrical outlet before handling or cleaning.

WARNING

To reduce the risk of burns, fire, electric shock or injury:

1. Remove the lightset from the packaging before use. Do not connect the lightset to the electric system while it is still in the packaging.
2. This is an electric product – not a toy! To avoid risk of fire burns, personal injury and electric shock it should not be played with or placed where small children can reach it.
