

MAGMA SPEAKER USER MANUAL

Product overview

Function Introductions:

- When the unit is connected with power, Turn on the Power.
- This Magma Speaker is designed to operate in an average room temperature of 20C - 25C (68-77F). It takes 1-3 hours to warm up Make sure the Magma Speaker is at room temperature before starting.
- Keep the Magma Speaker away from extreme cold or warm temperatures such as heating or air conditioning vents.
- The Magma Speaker operates at a very warm temperature. Place on a solid stationary, flat surface and keep out of reach of small children and pets. Avoid direct sunlight to prevent colors from fading and extreme overheating.
- The color hue of the wax will mellow after 2-3 uses. If the room temperature is high the wax may become small and float to the top of the vase due to overheating. If the temperature is low, it will stay in the bottom of the vase without floating, Wait until the room temperature is back to the designated range before restarting.
- Use only fine glass cleaner and soft cloth to clean the surface. Always unplug before cleaning.
- When Magma Speaker is in operation be sure not to move or shake it in order to avoid causing permanent damage.
- Magma Speaker should never be heated up or cooled down artificially.
- Before carrying check to see if the wax layer is completely flat and solidified.
- The space at the top of the vase is provided for expansion. Do not break the seal of the cap to fill it with liquids or solids.
- Use maximum 30 watt reflector bulb for bulb replacement. Variance in bulb size or wattage will produce unsatisfactory operation, fire or may break glass.
- The speaker and reflector may be off center during shipping, Please re-center before plugging in the speaker.
- Always use the original box for long periods of storage, do not freeze.
- DO NOT INGEST.WARRANTY VOID.
- Bluetooth: Turn on the power, waiting for connection, search the device name "Magma Lamp Speaker" and connect, Then you can enjoy music from your device accordingly;
- If using AUX, connect the included AUX cable to the port on the side, Then connect the 3.5mm auxiliary jack at the other end of the cable to your device's audio jack.

ADULT NOVELTY PRODUCT, THIS IS NOT A TOY.

Specifications:

Light Bulb: E17 / 30W
Speaker Rated Power: 5W max
Sensitivity: $\leq 3\%$
Frequency Response: 100Hz-18KHz
Working distance: $\leq 10M$

Power: AC 120V / 60Hz
Speaker: $\varnothing 45mm, 4\Omega 3W \times 1$
SNR: $\geq 85db$
Bluetooth Version: V5.0
Product Size: 4.25x4.25x16.5inch
